The chart displays the cumulative time for simple reads. The x-axis is labeled with read numbers from 2 to 184 in increments of 7. The y-axis is labeled with time values from 0 to 30,000 in increments of 10,000. Blue vertical bars represent the time for each individual read, and a red line represents the cumulative time. The cumulative time increases steadily, reaching approximately 26,000 units at 184 reads.
